JET

 **SVibe**

ENGLISH

GET TO KNOW YOUR JET

The SVibe Ikon JET is a multifunctional masturbator featuring an innovative MagHeat System, which ensures a lifelike sensation and easy maintenance, with a replaceable High-Tech Inner sleeve on magnets. It offers 3 speeds and 7 vibration modes, as well as 3 speeds and 3 modes of thrusting action. The JET is a versatile pleasure tool designed for blended orgasms.

Remember: Lube is your friend! Use SVibe Extra Rich lubricant to reduce friction and increase sensation.

QUICK START

1. Charge

Using the included USB type C fast charger charge your device before your first use for approximately 2 hours. The LED will flash while charging and emit a steady glow once fully charged. Runtime when fully charged is up to 60 minutes, depending on the speed and mode.

2. Clean

Remove the sleeve from the tube by turning it from the slots and pulling it down. For optimal cleaning, use a special SVibe toy cleaner or mild soap with warm water before and after each use. Place the sleeve back into the tube, position the tube on the heating/drying base*, and turn on the base to dry the sleeve.

**When turned on, the heating/drying base reaches the temperature of 68°C within 30 minutes ensuring fast dry after cleaning, warm lifelike sensation before use and lifespan increase. Automatic power-off protection activates after one hour.*

3. Enjoy

- Turn ON/OFF the device using the lower button.
- Press the left button to turn on the sleeve heating.
- Press the right button to change vibration speeds and modes.
- Press the lower button to adjust thrusting action speeds and modes.
- Press the upper button to activate full power JET mode.

PLEASE READ IMPORTANT NOTES

Usage: Do not stretch, bend sideways, or overextend the inner sleeve.

Cleaning: Remove the sleeve from the tube. The sleeve is waterproof and can be immersed in water for extended periods. Ensure it is cleaned thoroughly.

Storage: Once clean and dry, store the SVibe Ikon JET in a safe, dry place away from direct sunlight. Charge, use, and store the device at a temperature between 5°C and 25°C.

Charging: The SVibe Ikon JET may heat up during charging. When first unpacking, the battery is only partially charged. It takes 2 hours to fully charge. Once fully charged (LED emits a steady glow), enjoy approximately 1 hour of use, which varies depending on the intensity selected.

Warranty: Legal warranty claims of the country where the device is sold apply. We will correct defects due to material or manufacturing faults either by repair or replacement at our discretion.

Warranty Exclusions: This warranty does not cover damages resulting from incorrect or inappropriate handling, normal wear, or deficiencies that only insignificantly affect the device's value or usability.

WARNING: To avoid injury or aggravation of pre-existing conditions, do not use this device on swollen or inflamed areas or skin lacerations. No medical claims are warranted or implied by the use of this product. Sold as an adult novelty. Made in China.
