PUMP WORX® MAX BOOST MANUAL PISTON-ACTION PUMP

Thank you for purchasing The **Pump Worx Max Boost!** We appreciate your trust in our product and are committed to providing you with the best experience possible.

Before using your new **Pump Worx Max Boost**, please take a moment to read this instruction manual carefully. It contains important information on setup, operation, and maintenance to ensure optimal performance and safety.

If you have any questions or need assistance, our customer support team is here to help. Enjoy your new **Pump Worx Max Boost**, and thank you for choosing us!

CAUTION:

Prolonged and frequent use of penis enhancing devices may cause ruptured blood vessels, hemorrhage, and hematoma formation. This device can also aggravate existing medical conditions such as Peyronie's disease, priapism, and urethral stricture. Penis enhancing devices are intended for adult use only.

USAGE

The in-line, manual piston-action pump design means that everything you need to start growing is built into the pump itself. No need to attach hoses or handles, no need to remember to recharge batteries, and no loud pump motors to ruin your

discretion. Simply insert your penis, pull down on the pump head and release. **You will be swelling with power in no time!** The motorless design makes the **Max Boost** perfect for use in the bath or shower. For a heightened experience, try filling the tube with water before pumping.

The crystal clear tube allows you to see your cock get bigger and fatter. It is made from heavy-grade polycarbonate and features an easy-to-read ruler allowing you to measure your growth.

The soft, ultra-hygienic premium Elite Silicone™ sleeve is removable and feels great against the skin. When you're done, simply press the quick release button to instantly relieve the pressure.

CLEANING

Always clean with an antibacterial cleaner and warm water before and after every use.
